Fee: \$900 early bird
\$950 after Dec 1

Space is available for 24 participants

Register Early!

Virtual, via Zoom

Course Description:

This course has been pre-approved by CACFT (formerly CAMFT) and is designed for professionals wishing to pursue their CACFT Supervisory Designation or to further develop their supervision skills. The course emphasizes the integration of supervision theory with selected supervision practice issues. It features a critical review of several major models of clinical supervision and a focus on facilitating the co-evolving supervision-therapy systems. Participants will develop and articulate a personal model of supervision. This course requires intense participation in a range of academic, interactive and reflective exercises designed for professional development.

This advanced clinical course is designed for experienced therapists who want to expand their practice to include training and supervising of other clinicians as they develop their skills in individual, couple and family therapy.

This 30 hour course will be taught virtually over five days from 9 am - 4 pm.

Each day will include a mix of didactic presentation, interactional learning exercises, and large- and small-group discussion.

Required Texts:

Jordan, K. (Ed.). (2016). *Couple, marriage, and family therapy supervision*. New York: Springer Publishing Company

Lee, R & Nelson, T. (2022). *The Contemporary Relational Supervisor* (2nd ed.). New York: Routledge.

CACFT/ACTCF RMFT Supervisor Certification Procedures and Competencies Guidebook

Ethical Guidelines of participant's governing bodies: CACFT, CRPO, OCSWSSW or other relevant Code of Ethics.

Participants are responsible for obtaining the required texts and articles. It is highly recommended that participants read a majority of the selected readings prior to attending the course.

Jennifer Myrie's experience includes 20 years managing clinical services, providing clinical supervision to clinicians and supervisors from diverse backgrounds and at various stages of professional development. Jennifer has taught for 13 years in degree and continuing education programs and is equally passionate about clinical practice, teaching and clinical supervision. Jennifer is committed to practices that attend to socio-cultural contexts and power, and which embody equity, excellence and collaboration.

Susan Winter Fledderus has more than 25 years of experience in the field of individual, couple and family therapy. She has been teaching and providing clinical supervision and supervision mentoring for over 15 years to therapists and supervisors working toward their CRPO or CACFT certifications or other professional designations. Susan loves digging into the theories and practices that promote empowering supervision relationships and effective interventions.
